

The Clark County Family Child Care Association (CCFCCA) is an independent, non-profit organization that has been actively serving children, families and licensed family child care providers around the Clark County area for over 40 years. All of the profits stay with our local Association to directly support our members and the families they serve here in Clark County.

The CCFCCA supports early learning by bringing in highly skilled MERIT and Specialty trainers from around the area to serve as trainers at our monthly meetings. We offer providers opportunities to network with local agencies that offer up-to-date information and we encourage early learning programs and/or activities in all family home daycares.

The CCFCCA uses our online support/referral group, our monthly meetings, and website, www.ccfcca.net, to encourage the provider, parent, school and community organization connections. We also offer valuable materials and resources at our monthly meetings and workshops that are helpful to providers and to the families they serve.

The CCFCCA encourages providers to stay connected, happy and healthy. We help providers stay connected by offering uplifting social gatherings several times a year along with our well-balanced monthly meetings and STARS trainings.

The CCFCCA keeps a close ear to the wants and needs of our members. We offer trainings and activities that keep us up-to-date and current on the WAC's and any issues that is a "hot topic" in the daycare community.

2016-2017 CCFCCA MEMBERSHIP APPLICATION

Name: _____
(Please Print)

Address: _____
